CAR WORKSHOP PVT LTD

# CAR CUSTOMIZE STUDIO

Driving Trust, Quality & Innovation in Every Service

# MOTOVILLAGE

CAR WORKSHOP PVT LTD

## Vision

To be the most trusted one stop car care destination, delivering quality, innovation, and reliable automotive solutions with excellence and customer satisfaction.

## Mission

To provide complete car care solutions through expert service, advanced technology, and trusted support, ensuring safety, performance, and reliable customer experiences.

## Company Profile

**Motovillage Car Workshop Pvt. Ltd.** is your destination for expert automotive care. Since 2018, our engineer-led team has combined technical theory with hands-on precision to serve over 22,000+ satisfied clients. From routine maintenance to premium upgrades, we prioritize transparency and strict quality standards to ensure a stress-free car ownership experience.

## Why Choose Motovillage ?

- Expert Team: 10+ years of experience.
- Modern Tools & Technology.
- Complete Car Care Solutions.
- Customer First Approach.
- Fast & Reliable Service.
- Every Car Deserves Care & Safety.
- Driven by Passion, Built on Trust.
- Quality Service with Lasting Trust.

## Experience & Expertise

Field Experience: Since 2018

Theoretical Knowledge: Since 2013

## FOAM CAR WASH PROCESS

- **Pre-Rinse**  
Removes loose dirt and dust from the car surface. Prepares the vehicle for deep foam cleaning.
- **Foam Application**  
Thick foam is sprayed evenly on the vehicle. Helps loosen mud, grease, and stubborn dirt.
- **Dirt Breakdown**  
Foam penetrates and lifts contaminants gently. Reduces the risk of scratches during washing.
- **Hand Wash**  
Soft microfiber mitts clean every surface carefully. Ensures a detailed and spotless finish.

- **Final Rinse**  
Clean water washes away foam and residue. Leaves the surface fresh and clean.

## BENEFITS

- Deep Cleaning
- Paint Safety
- Time Efficient
- Scratch Protection
- Better Shine
- Wheel Care

## WASH & WAX

- **Surface Cleaning**  
Removes dirt, dust, and road grime effectively.  
Leaves the vehicle fresh and spotless.
- **Wax Application**  
Protective wax layer is applied evenly.  
Enhances shine and smoothness instantly.
- **Paint Protection**  
Wax shields the paint from sunlight and dirt.  
Helps maintain long lasting color quality.
- **Water Repellent Finish**  
Creates a smooth hydrophobic surface layer.  
Water slides off easily after washing.
- **Long Lasting Cleanliness**  
Prevents dust from sticking quickly.  
Keeps the car cleaner for longer.

## BENEFITS

- Enhanced Shine
- Paint Safety
- Enhanced Shine
- Paint Safety
- Paint Safety
- Longer Lasting Cleanliness

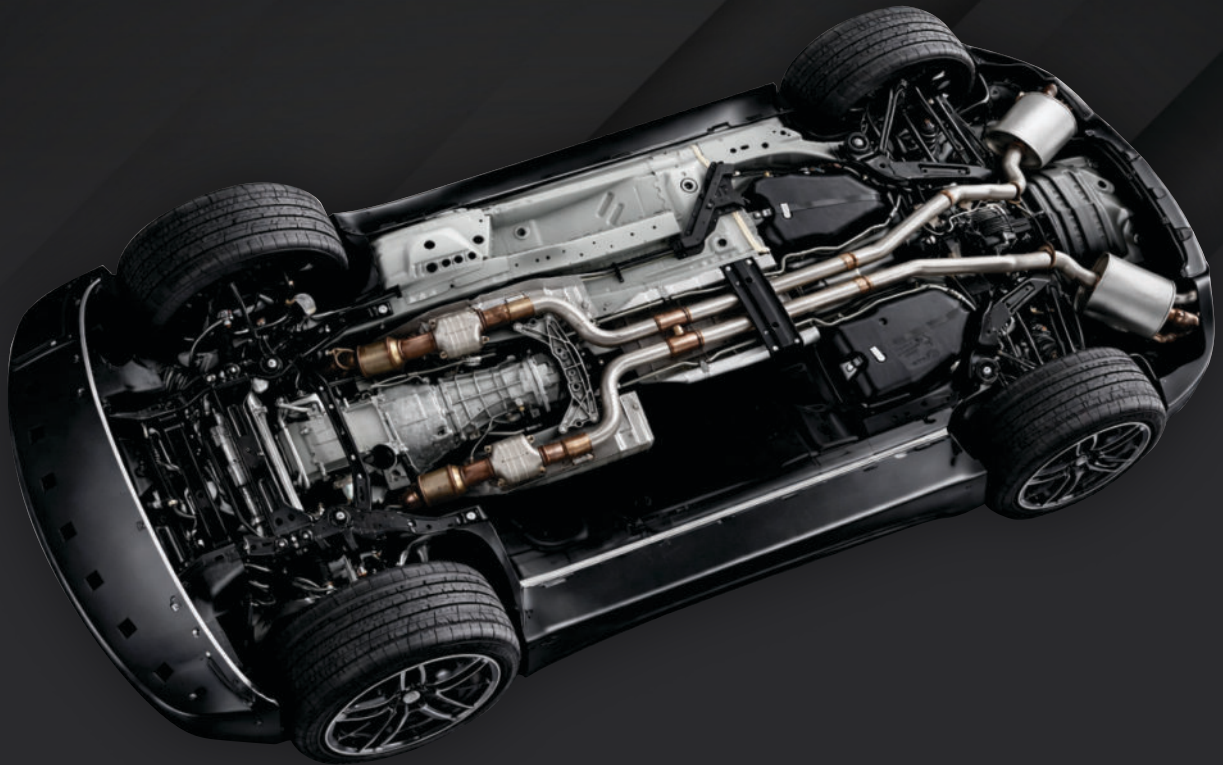

## INTENSIVE INTERIOR CLEANING

- **Deep Dust Removal**  
Cleans hidden dust from every corner. Keeps the cabin fresh and hygienic.
- **Seat Cleaning**  
Removes stains and trapped dirt effectively. Restores a neat and clean appearance.
- **Dashboard Detailing**  
Cleans and polishes dashboard surfaces carefully. Enhances the interior's premium look.
- **Carpet Vacuuming**  
Eliminates dust, crumbs, and debris deeply. Maintains a clean cabin environment.
- **Odor Removal**  
Helps remove unpleasant interior smells. Leaves the car smelling fresh.

## BENEFITS

- Healthier Environment
- Fresh Interior Smell
- Better Comfort
- Stain Removal
- Improved Air Quality
- Enhanced Interior Look
- Paint Safety
- Surface Protection
- Higher Resale Value

## UNDER BODY COATING

### ○ Surface Preparation

Underbody is cleaned to remove dirt & rust.  
Ensures better coating adhesion and coverage.

### ○ Rust Protection

Protective coating shields metal from corrosion.  
Helps prevent rust caused by moisture.

### ○ Noise Reduction

Helps reduce road and vibration noise.  
Provides a quieter driving experience.

### ○ Weather Resistance

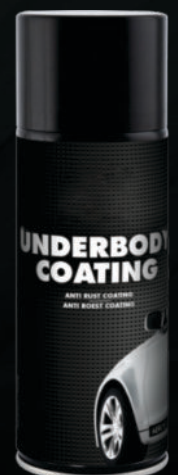

Protects against harsh weather conditions effectively.  
Improves durability in all seasons.

### ○ Professional Finish

Coating is applied evenly for full coverage.  
Enhances underbody safety and protection.

## BENEFITS

- Better Durability
- Chemical Resistance
- Increased Vehicle Life
- Lower Maintenance Cost
- Higher Resale Value

## SYNTHETIC COATING

---

- **Surface Preparation**  
Vehicle surface is cleaned and polished properly. Ensures better coating bonding and finish.
- **Paint Protection**  
Coating protects paint from dust and UV rays. Helps reduce fading and surface damage.
- **Scratch Resistance**  
Adds a protective layer against minor marks. Helps reduce light swirl scratches.

## BENEFITS

---

- Water Beading Effect
- Long Lasting Protection
- Easy Cleaning
- Dust Resistance
- Paint Safety
- Superior Shine

## CERAMIC COATING

### ○ Surface Preparation

Paint surface is cleaned and polished carefully. Ensures perfect coating bonding and smoothness.

### ○ Ceramic Layer Application

Advanced ceramic coating is applied evenly. Creates a strong protective surface shield.

### ○ Hydrophobic Effect

Repels water, dirt, and mud effectively. Keeps the surface cleaner for longer.

### ○ Long Lasting Shield

Offers durable protection for extended periods. Maintains paint quality & Smoothness.

## BENEFITS

- Better Durability
- Chemical Resistance
- Increased Vehicle Life
- Lower Maintenance Cost
- Higher Resale Value

## PAINT PROTECTION FILM

### ○ Film Application

Transparent protective film is applied precisely.  
Covers paint with a durable shield.

### ○ Stone Chip Resistance

Absorbs impact from road debris effectively.  
Prevents paint chips and marks.

### ○ UV Protection

Blocks harmful sunlight from damaging paint.  
Helps prevent fading and discoloration.

### ○ Gloss Enhancement

Maintains a clean and glossy finish.  
Enhances the vehicle's premium appearance.

### ○ Long Lasting Protection

Provides durable paint safety for years.  
Keeps the exterior in top condition.

## BENEFITS

- Maximum Paint Safety
- Stone Chip Protection
- Self Healing Surface
- UV Resistance
- Easy Maintenance
- Enhanced Interior Look
- Better Resale Value
- Long Term Durability
- Glossy Appearance

## HEADLIGHT RESTORATION

### ○ Headlight Inspection

Headlights are checked for haze and damage. Identifies dullness and visibility issues clearly.

### ○ Oxidation Removal

Yellowing and cloudy layers are removed carefully. Restores the lens clarity effectively.

### ○ Sanding Process

Smooths damaged and rough headlight surfaces. Helps improve overall transparency.

### ○ Brightness Enhancement

Improves headlight light output significantly. Provides better road visibility at night.

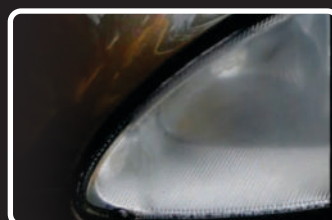

### ○ Final Finishing

Headlights are polished for a premium look. Enhances the vehicle's front appearance.

## BENEFITS

- Better Night Visibility
- Restored Clarity
- Improved Safety
- UV Damage Protection
- Enhanced Appearance

BEFORE

AFTER

## WINDSHIELD GLASS RESTORATION

### ○ Glass Inspection

Windshield surface is checked for damage and marks. Identifies scratches and visibility issues clearly.

### ○ Surface Cleaning

Glass is cleaned to remove dirt and residue. Prepares the surface for restoration treatment.

### ○ Scratch Removal

Minor scratches and marks are polished carefully. Improves windshield clarity and smoothness.

### ○ Polishing Process

Special compounds enhance glass transparency. Reduces dullness and surface haze.

### ○ Protective Treatment

Protective layer helps resist future stains. Keeps the windshield cleaner longer.

## BENEFITS

- Clear Visibility
- Scratch Reduction
- Better Night Driving
- Water Spot Removal
- Easy Maintenance
- Safer Driving Experience
- Enhanced Appearance
- Longer Glass Life
- Easy Maintenance

## BLACK TRIM RESTORATION

### ○ Trim Inspection

Black trims are checked for fading and damage. Identifies dull and worn out areas.

### ○ Surface Cleaning

Removes dirt and old residue from trims. Prepares the surface for restoration treatment.

### ○ Color Restoration

Restores faded black trim color deeply. Brings back the original rich finish.

### ○ Surface Conditioning

Nourishes dry and dull trim surfaces. Improves smoothness and texture appearance.

### ○ Shine Enhancement

Enhances the trim's clean satin finish. Gives a refreshed premium appearance.

## BENEFITS

- UV Damage Protection
- Long Lasting Results
- Surface Protection
- Easy Maintenance
- Increased Durability

BEFORE

AFTER

## OZONE TREATMENT

---

### ○ Interior Inspection

Cabin areas are checked for odor sources.  
Identifies bacteria and smell affected zones.

### ○ Deep Air Purification

Ozone treatment cleans the cabin air deeply.  
Helps remove airborne contaminants effectively.

### ○ Odor Elimination

Neutralizes smoke, food, and pet odors.  
Leaves the interior smelling fresh.

### ○ AC Vent Treatment

Cleans odors trapped inside AC vents.  
Improves airflow freshness inside the cabin.

### ○ Sanitization Process

Purifies hard to reach interior areas.  
Enhances overall cabin hygiene quality.

## BENEFITS

---

- Odor Free Interior
- Cleaner Air Quality
- Bacteria Reduction
- Fresh AC Airflow
- Mold Prevention
- Better Driving Comfort
- Deep Interior Sanitization
- Improved Vehicle Appeal

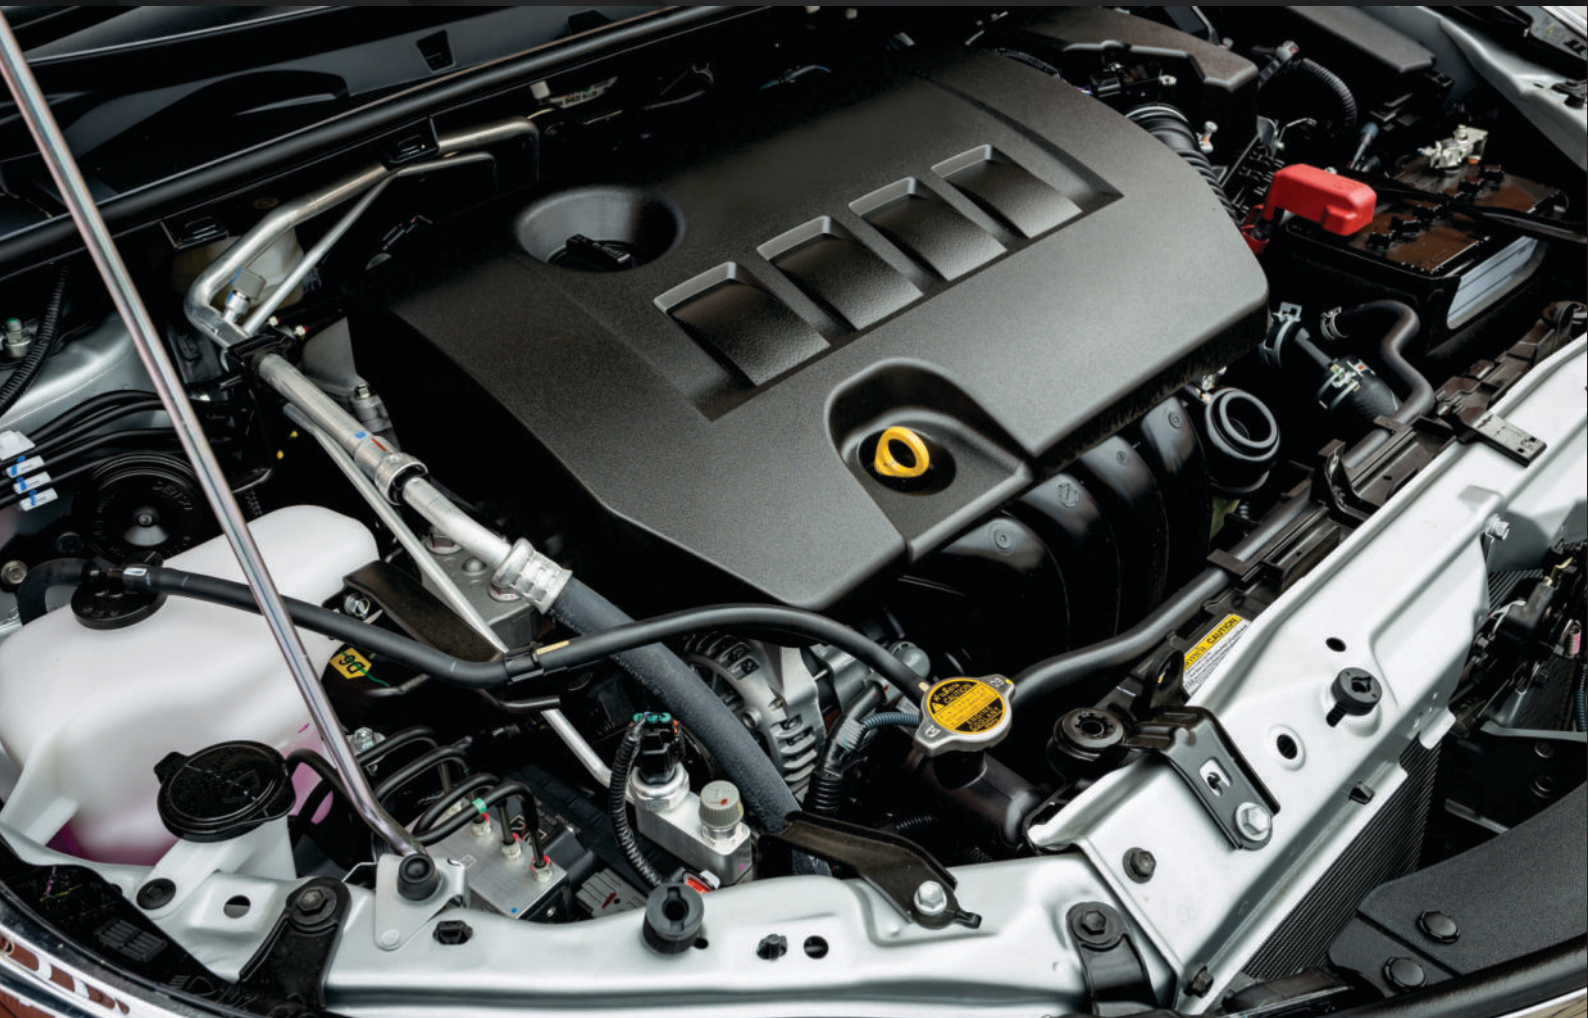

## FILM REMOVE

- **Surface Inspection**  
Film condition is checked before removal process. Identifies adhesive and damaged areas carefully.
- **Heat Treatment**  
Controlled heat softens the old film safely. Helps remove film without surface damage.
- **Film Removal**  
Old film is peeled off carefully. Prevents scratches and residue marks.
- **Glass Surface Cleaning**  
Windows are cleaned after film removal. Restores clear and spotless visibility.
- **Surface Preparation**  
Prepares windows for new film installation. Ensures a smooth fresh surface finish.

## BENEFITS

- Clean Glass Finish
- Better Visibility
- Residue Free Surface
- Safe Removal Process
- Ready For New Film
- Enhanced Appearance
- Reduced Maintenance Issues
- Improved Vehicle Value

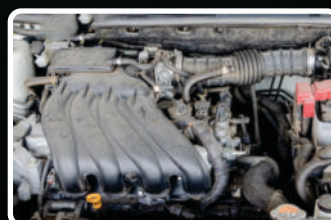

## ENGINE BAY DETAILING

- **Engine Inspection**  
Engine bay is checked for dirt and buildup. Identifies grease and dust affected areas.
- **Surface Protection**  
Sensitive engine components are covered safely. Prevents water damage during cleaning.
- **Degreasing Process**  
Removes oil, grease, and grime effectively. Restores a cleaner engine appearance.
- **Drying Process**  
Engine area is dried with proper care. Prevents moisture related issues.
- **Shine Enhancement**  
Dressings restore a clean satin finish. Gives the engine bay a fresh look.

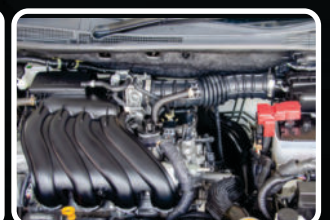

## BENEFITS

- Cleaner Engine Bay
- Better Maintenance Visibility
- Enhanced Appearance
- Improved Resale Value
- Reduced Dirt Buildup

**BEFORE**

**AFTER**

## WATER SPOT REMOVE

- **Surface Inspection**  
Paint and glass surfaces are checked carefully. Identifies hard water stain affected areas.
- **Deep Surface Cleaning**  
Removes dirt and mineral deposits safely. Prepares the surface for treatment.
- **Water Spot Treatment**  
Special solutions break down hard water stains. Restores surface clarity and smoothness.
- **Glass Spot Removal**  
Hard water stains are removed from glass. Enhances visibility and transparency clearly.
- **Protective Finishing**  
Protective layer helps resist future stains. Keeps surfaces cleaner for longer.

## BENEFITS

- Spot Free Finish
- Better Surface Clarity
- Paint Protection
- Smooth Surface Feel
- Easier Maintenance

BEFORE

AFTER

## ONE STEP POLISH & WAX

### ○ Paint Correction

Reduces minor scratches and swirl marks.  
Restores smoothness to the paint surface.

### ○ Polishing Process

Enhances paint clarity and gloss deeply.  
Brings back a refreshed exterior finish.

### ○ Wax Application

Protective wax layer is applied evenly.  
Adds shine and surface protection.

### ○ Surface Protection

Wax shields paint from dust and UV rays.  
Helps reduce environmental damage.

### ○ Smooth Finish

Leaves the paint silky and polished.  
Improves the overall touch and feel.

## BENEFITS

- Restored Paint Shine
- Minor Scratch Reduction
- Paint Protection
- Water Repellent Effect
- Smooth Surface Finish
- Easy Maintenance
- Cost Effective Treatment
- Better Vehicle Appearance

## GENIUN LEATHER TREATMENT

### ○ **Leather Inspection**

Leather surfaces are checked for wear and damage. Identifies dryness and stain affected areas.

### ○ **Deep Leather Cleaning**

Removes dirt and oils from leather surfaces. Restores a clean natural finish.

### ○ **Leather Conditioning**

Conditioners nourish and soften the leather deeply. Prevents dryness and surface cracking.

### ○ **Moisture Protection**

Protective treatment helps retain leather moisture. Maintains flexibility and smooth texture.

### ○ **Surface Restoration**

Enhances softness and premium leather feel. Brings back a refreshed appearance.

## BENEFITS

- Soft Leather Feel
- Crack Prevention
- UV Damage Protection
- Long Lasting Durability
- Better Interior Appearance
- Easy Maintenance
- Higher Resale Value
- Cleaner Appearance

## ALLOY WHEEL CLEANING & POLISHING

### ○ Wheel Inspection

Alloy wheels are checked for dirt and damage. Identifies stains and brake dust buildup.

### ○ Deep Wheel Cleaning

Removes grime, grease, and brake dust safely. Restores a clean wheel surface.

### ○ Stain Removal

Tough stains and deposits are treated carefully. Improves wheel clarity and finish.

### ○ Surface Polishing

Polishing enhances wheel shine and smoothness. Brings back the alloy's premium look.

### ○ Protective Coating

Protective layer helps resist dirt buildup. Keeps wheels cleaner for longer.

## BENEFITS

- Restored Wheel Shine
- Brake Dust Removal
- Enhanced Appearance
- Surface Protection
- Easier Maintenance
- Corrosion Prevention
- Long Lasting Finish
- Better Vehicle Value

## DECONTAMINATION & SURFACE REFINEMENT

- **Surface Inspection**  
Paint surface is checked for contaminants and defects. Identifies roughness and embedded particles clearly.
- **Deep Surface Cleaning**  
Removes dirt, tar, and industrial fallout safely. Prepares the paint for refinement treatment.
- **Decontamination Process**  
Clay treatment removes bonded surface contaminants. Restores a smoother paint finish.
- **Oxidation Removal**  
Removes dull and faded surface layers. Brings back paint freshness and shine.
- **Polishing Treatment**  
Polishing improves gloss and paint depth. Creates a refined exterior appearance.

## BENEFITS

- Smooth Paint Surface
- Enhanced Paint Clarity
- Better Protection Bonding
- Contaminant Removal
- Restored Shine
- Easier Maintenance
- Paint Preservation
- Higher Vehicle Appeal

## AC VENT CLEANING

- **Deep Vent Cleaning**  
Removes dust and debris from vents safely.  
Restores cleaner air circulation inside.
- **Bacteria Removal**  
Helps eliminate germs and harmful bacteria.  
Improves cabin hygiene and freshness.
- **Airflow Improvement**  
Cleans blocked vent passages effectively.  
Enhances smooth air circulation performance.
- **Mold Removal**  
Targets mold and mildew inside vents.  
Helps maintain healthier cabin air.
- **Sanitization Process**  
Disinfects hard to reach vent areas.  
Creates a cleaner interior environment.

## BENEFITS

- Fresher Cabin Air
- Improved Air Quality
- Better AC Performance
- Bacteria Reduction
- Mold Prevention
- Enhanced Driving Comfort
- Reduced Dust Circulation
- Easy Maintenance

## STEAM WASH

- **High Temperature Cleaning**  
Steam loosens dirt and grime effectively.  
Provides deep cleaning without harsh chemicals.
- **Interior Cleaning**  
Steam cleans seats, carpets, and panels safely.  
Removes dirt from hard to reach areas.
- **Grease Removal**  
Breaks down oil and stubborn grease buildup.  
Restores cleaner engine and surface areas.
- **Odor Reduction**  
Helps remove unpleasant interior smells.  
Leaves the cabin feeling fresh.
- **Eco Friendly Cleaning**  
Uses minimal water during cleaning process.  
Reduces excessive water wastage.

## BENEFITS

- Deep Cleaning Power
- Sanitized Surfaces
- Water Saving Method
- Chemical Free Cleaning
- Better Interior Freshness
- Safe Surface Cleaning
- Grease Removal Efficiency
- Enhanced Vehicle Appearance

## NEW CAR SALES

### ○ Vehicle Consultation

Experts help choose the right vehicle.  
Ensures the best match for your needs.

### ○ Transparent Pricing

Clear pricing with no hidden charges.  
Provides a smooth buying experience.

### ○ Finance Support

Flexible financing options are available.  
Makes car ownership more convenient.

### ○ Documentation Assistance

Support for registration and paperwork process.  
Ensures hassle free vehicle delivery.

### ○ Customer Support

Dedicated assistance throughout the buying journey.  
Ensures complete customer satisfaction.

## BENEFITS

- Hassle Free Buying
- Wide Range Options
- Expert Guidance
- Flexible Payment Options
- Reliable Documentation Support
- Quality Assurance
- Better Ownership Experience
- Long Term Value

## MECHANICAL WORK

- **Vehicle Inspection**  
Complete mechanical systems are checked carefully. Identifies faults and performance issues accurately.
- **Engine Repair**  
Engine components are repaired with precision. Restores smooth vehicle performance efficiently.
- **Brake Service**  
Braking systems are inspected and serviced properly. Ensures safer driving and control.
- **Suspension Repair**  
Suspension parts are repaired or replaced carefully. Improves driving comfort and stability.
- **Parts Replacement**  
Worn mechanical parts are replaced professionally. Improves reliability and vehicle efficiency.

## BENEFITS

- Improved Vehicle Performance
- Better Safety
- Increased Reliability
- Longer Vehicle Life
- Fuel Efficiency Improvement
- Reduced Repair Costs
- Comfortable Driving Experience
- Higher Resale Value

## ACCIDENTAL WORK

- **Dent Repair**  
Dents and body damage are repaired carefully. Restores the vehicle's original shape.
- **Panel Replacement**  
Damaged panels are replaced professionally. Ensures proper fit and finish quality.
- **Paint Restoration**  
Matched paintwork restores original appearance. Blends repairs seamlessly with the body.
- **Parts Repair & Replacement**  
Damaged components are repaired or replaced. Ensures reliable vehicle performance again.
- **Surface Refinishing**  
Polishing and refinishing improve repaired areas. Restores a smooth premium finish.

## BENEFITS

- Restored Vehicle Appearance
- Professional Repair Quality
- Long Lasting Repairs
- Value Preservation
- Complete Restoration

**BEFORE**

**AFTER**

## INSURANCE WORK

- **Claim Assistance**  
Support is provided for insurance claim procedures.  
Makes the process simple and stress free.
- **Documentation Support**  
Helps manage insurance paperwork efficiently.  
Reduces delays during claim processing.
- **Survey Coordination**  
Coordinates with insurance surveyors professionally.  
Ensures smooth inspection and approval.
- **Cashless Claim Facility**  
Supports cashless repair claim services.  
Provides convenient repair experience for customers.
- **Quality Repair Work**  
Approved repairs restore vehicle condition properly.  
Maintains safety and appearance standards.

## BENEFITS

- Hassle Free Claim Process
- Faster Claim Approval
- Professional Assistance
- Convenient Cashless Repairs
- Accurate Damage Evaluation
- Smooth Repair Coordination
- Reliable Repair Quality
- Peace of Mind

## CAR AC REPAIR

- **AC System Inspection**  
Complete AC system is checked thoroughly.  
Identifies cooling and performance issues accurately.
- **Gas Level Check**  
Refrigerant levels are inspected carefully.  
Ensures proper cooling efficiency performance.
- **Compressor Repair**  
Faulty compressor issues are repaired professionally.  
Restores smooth AC system operation.
- **Filter Cleaning & Replacement**  
Dirty cabin filters are cleaned or replaced.  
Helps maintain fresh airflow inside.
- **Vent & Airflow Check**  
AC vents and airflow are inspected carefully.  
Ensures balanced cooling across the cabin.

## BENEFITS

- Better Cooling Performance
- Fresh Cabin Air
- Improved Airflow
- Leak Prevention
- Increased System Efficiency
- Comfortable Driving Experience
- Reduced Future Repairs
- Longer AC System Life

## ECM REPAIRING

### ○ ECM Diagnosis

Electronic control module is checked thoroughly. Identifies faults and system errors accurately.

### ○ Error Code Scanning

Advanced scanners detect system malfunction codes. Helps identify electronic performance issues quickly.

### ○ Software Programming

ECM software is updated or reprogrammed. Improves system performance and accuracy.

### ○ Wiring Check

Electrical wiring and connectors are tested safely. Prevents signal interruption and faults.

### ○ System Calibration

ECM settings are calibrated for accuracy. Ensures proper engine and sensor response.

## BENEFITS

- Improved Vehicle Performance
- Accurate System Control
- Better Fuel Efficiency
- Reduced Warning Errors
- Faster Issue Detection
- Enhanced Engine Performance
- Reliable Electrical Communication
- Longer System Life

## CAR ACCESSORIES

- **Interior-Exterior Accessories**  
Enhances cabin comfort and convenience features.  
Adds style and protection to the vehicle.
- **Audio & Entertainment Systems**  
Upgrades music and entertainment experience.  
Provides better sound quality and enjoyment.
- **Lighting Accessories**  
Improves vehicle lighting and visibility performance.  
Adds a modern stylish appearance.
- **Safety Accessories**  
Adds features for extra safety and protection.  
Enhances driving confidence on roads.
- **Custom Installation**  
Accessories are installed professionally and securely.  
Ensures proper fitting and functionality.

## BENEFITS

- Enhanced Comfort
- Better Vehicle Appearance
- Improved Functionality
- Increased Safety
- Personalized Style
- Better Entertainment Experience
- Professional Installation Quality
- Higher Vehicle Value

## VEHICLE TRACKING SYSTEM

### ○ GPS Device Installation

Tracking device is installed securely in vehicle.  
Ensures accurate location monitoring performance.

### ○ Real Time Tracking

Tracks vehicle location live and accurately.  
Provides instant movement updates anytime.

### ○ Route Monitoring

Monitors travel routes and trip history.  
Helps improve route management efficiency.

### ○ Theft Protection System

Adds features for extra safety and protection.  
Enhances driving confidence on roads.

### ○ Mobile App Integration

Access vehicle tracking through mobile devices.  
Provides convenient real time monitoring.

## BENEFITS

- Enhanced Vehicle Security
- Real Time Monitoring
- Faster Vehicle Recovery
- Better Route Management
- Improved Driver Safety
- Convenient Mobile Access
- Unauthorized Movement Alerts
- Fleet Management Support
